

ENVIRONMENTAL POLICY

Awex Sp. z o.o. Sp. k., as a company dealing with sales and customer service in the field of emergency lighting and fire alarm systems, appreciating the importance of environmental protection during its operations, decided to implement the Quality Management System ISO 14001:2015 in order to maintain its leading position on the market.

In order to prove our commitment to environmental protection and minimise our negative impact on the environment, we declare with full responsibility:

- acting in accordance with legal requirements concerning the environmental aspects of our company
- taking measures to prevent and reduce our emissions and generation of waste
- rational use of materials, energy and water
- improving qualifications of our employees
- striving for continuous improvement of the company's environmental, health and safety performance.

Our environmental policy is an integral strategy of the company, communicated within the entire organisation, available to all interested parties and made public.
